

## Internal Technical Sales

For over 25 years Eagle Vision ([www.eaglevision.nl](http://www.eaglevision.nl)) designs, develops and delivers high-quality computer vision systems to premium customers. Recently, Eagle Vision has become part of the Industrial Physics ([www.industrialphysics.com](http://www.industrialphysics.com)) global family of companies, active in the field of test and measurement systems for metal packaging and other industries.

With the Basic Scout product line, Eagle Vision delivers premium and modular in-line inspection systems to the food, beverage and packaging industries. Eagle Vision is market leader of inspection systems for the Baby Food Nutrition supply chain.

### **Profile**

To further support our growing international sales and distribution team, Eagle Vision is hiring a position for **Internal Technical Sales** with primary tasks and responsibilities to include:

- First line of support for commercial inquiries from customers, distributors, partners, and the Industrial Physics sales team. Provide technical answers and act as liaison with development team as needed
- Generate technical proposals and quotations for the global network of Eagle Vision and Industrial physics partners
- Lead the post order process management with coordination between customer, development, and production to ensure smooth delivery of the solution
- Assist in the development of product- & marketing information and newsletters, maintaining all existing and prospective customer information into CRM
- Lead generation activities in Food, Beverage & Packaging Industries
- Participate in international trade shows/fairs as needed, some travel may be required for the purpose of support or training of the global sales network

### **Requirements:**

- Bachelor or Master degree preferably Business and/or Technology related
- Several years sales related industrial work experience
- Able to develop effective relationships with (global)customers and (global) partners at all levels

Eagle Vision is a proven, successful and growing In-Line Vision technology market leader and for the experienced Sales Engineering an opportunity to have impact on the success of the business and his/her own career. Eagle Vision offers a competitive package and career development.
